DETAILED ACTION

Examiner acknowledges receipt amendment including amendment to the specification at page 18, second paragraph to correct the US patent number and remarks filed 10/20/06. Claim 104 appears to be amended and new claims 105-108 are added. Claims 97, 98 and 103-108 are pending.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 97, 98, 103 and 104 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. New claims 105-108 are included in the rejection. Therefore, claims 97, 98 and 103-108 remain/are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is new matter rejection.

The specification as originally filed does not support the scope of the presently claimed composition of claim 104. While the specification at paragraphs [0009], [0011], [0024], [0046], [0048], [0051], [0060] and [0061] supports the general composition of claim 104, the specific composition limited by the consisting essentially of now recited in claim 104 is not envisioned.

Art Unit: 1618

The specific composition having the specific ranges as stated in the claims additionally with the consisting essentially of was not envisioned at filing. There is nothing in the specification pointing to this specific combination of components and amounts. Most of the disclosure includes growth factors. And when not present, only a few specific formulations are described but not as claimed in claim 104. See for example paragraphs [0002], [0003] and [0009].

Applicant may overcome this rejection by amending the claims to be commensurate with the composition disclosed in the specification.

Response to Arguments

3. Applicant's arguments filed 10/20/06 have been fully considered but they are not persuasive.

Applicant argues that the specification at paragraph [0012] supports a composition that consists essentially of hyaluronic acid/salt, cancellous bone and demineralized bone matrix, paragraph [0028] supports the presence of non-decalcified bone matrix, the combination of NBM and DBM is supported by paragraph [0046] and thus, applicant asserts that adequate written description.

Response:

As described in the rejection, there is nothing in the specification pointing to this specific combination of components and amounts. Most of the disclosure includes growth factors. And when not present, only a few specific formulations are described but not as claimed in claim 104. See for example paragraphs [0002], [0003] and [0009]. Further, the paragraphs cited by applicant all describe compositions that "comprise ..." and the comprising language is open and the specific composition claimed in claim 104 is not envisioned by the original disclosure.

Art Unit: 1618

Other Matters:

Claim 104, as amended has an opening bracket in line 3 after matrix and before the comma. There is however no closing bracket and it is unclear what the amendment is intended to remove add. Clarification is respectfully requested.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
